Scotty we're coming for you

I never knew how much I loved Wisconsin

Till I stood in the capitol dome

With signs on the walls, the drums in the halls

Cries of freedom shouting all night long

Everyone standing together

Teachers in green, cops in blue

Hundreds of thousands show people have power

So tell me what are we gonna do?

Scotty we're coming for you

Instrumental

For so long we've all been asking

How come people aren't more upset?

They're selling our clout, and tuning us out

They're not treating us with respect (hang on G)

The giant has only been sleeping

Now the sun is shining on morning dew

And from under the sheets it came into the streets

So tell me what is it gonna do?

Scotty we're coming for you

F F/E G

Tell me what are you gonna do?

F (Break)
